

NORTH CAROLINA REGIONAL Joint Criminal & Epidemiological Investigations Workshop

**North Carolina Regional
Joint Criminal & Epidemiological Investigations Workshop
Tuesday, March 27 – Wednesday, March 28, 2012
8:00am - 5:00pm
LOCATION:
Hilton North Raleigh/Midtown
3415 Wake Forest Road
Raleigh, NC 27609**

About the Training - Training Objectives

- Notification protocols for a WMD event (covert vs. overt);
- Assets or capabilities that each agency brings to the investigation;
- Steps involved in a WMD threat assessment;
- What an epidemiologist does in a public health investigation (for law enforcement);
- What an FBI agent does in a criminal or WMD investigation (for public health);
- Differences between public health and law enforcement investigations;
- How the CDC and law enforcement work together successfully despite the differences;
- Sampling issues for a WMD event/investigation;
- Laboratory issues for investigating a suspect WMD event (diagnostic and forensic);
- How to work together and understand each other's role in a WMD event through joint tabletop scenarios/exercises.

Registration online at: <http://crim-epi.org>

Training Cost: FREE
